WORK EXPERIENCE

JollyWare - *Co-Founder* | *Ohio* | **2024-Present**

- Created an independent games studio from scratch, aided by the ShawneeXP Games Accelerator, with the ultimate goal of releasing a successful indie title.
- Created professional branding & marketing materials to promote JollyWare as a business, as well as our product, Gnomad, including trailers, social media posts, promotional images, banners, hand-outs, press kits, business cards, & a website.
- Continually developed budgets, pitch decks, and production timelines to clearly and accurately portray important information to investors.
- Met with connections, mentors, and counsel over Teams, Zoom, Discord, & Google Meet to pitch, give updates, get legal advice, and receive feedback on our work.
- Tabled at events like GDEX & SGC to get feedback and promote our product.
- Utilized scrum/agile practices through daily stand-up meetings & weekly sprints with team members to stay aligned to common goals, as well as using Git & Trello.

Shawnee State University - *Resident Assistant* | *Portsmouth, Ohio* | **2024-2025**

- Managed ~50 residents, mediated conflicts, scheduled and conducted regular building meetings, and planned campus events under a strict budget.
- Assisted in disaster relief immediately following major flooding.
- RA responsibilities included filling roles at on-campus jobs; I answered calls and questions from those seeking assistance, as well as responding to online help tickets submitted from staff and students at the IT front desk.

Shawnee State University - *Supplemental Instructor* | *Portsmouth, Ohio* | **2022-2024**

- Helped students with any questions they may have had about classes, homework, or other general concerns while regularly meeting to discuss these face to face.
- Classes: Game Programming Foundations, Systems Programming, Data Structures

Boardman Local School District - *Technical Assistant* | *Boardman, Ohio* | **SUMMERS 2021-2022**

- Assisted with technical problems and answering online help tickets, managed inventory and disposal of old equipment, along with sorting, repairing, and assigning Chromebooks to incoming students. Also responsible for carrying out a summer-long project to install new phones into every classroom in the district.

EDUCATION

Shawnee State University - *BS in Digital Simulation & Game Programming* | *Portsmouth, Ohio* | **2025**

- Attended classes learning programming (C, C++, C#, Python, ASM, JavaScript, GDScript), HTML & CSS, graphic design with the Adobe Suite, 3D modeling with Maya, Pre-Production for project management, sound design, and music theory.
- Organized and participated in events as part of the "Gaming Houses" leadership.
- Worked with major commercial game engines (Unity, Unreal, & Godot) and participated in many game jams hosted on campus and independently.
- Gained proficiency with the Microsoft Office suite of software, LibreOffice, and Google provided equivalents through completing general education assignments.

ADDITIONAL EXPERIENCE

Portfolio - <https://connnand.github.io/>

- Contains professional long-term projects, game jam entries, and personal projects.
- Experience in level design, sound design, gameplay programming, networking, VFX, QA, & project management across 2D & 3D in several different engines.
